## ACTIVITY UPDATES

### McMurtrie Preserve

#### Service Learning Day

From Mike Reiter, Director

The Star Prairie Land Preservation Trust and the Star Prairie Fish & Game Association extend a big thank you to the high school students and teachers who helped out during the recent New Richmond High School Service Learning Day. In spite of on and off again rainfall, the students worked non-stop throughout the day. One group cleared trails and removed buckthorn and other invasive shrubs and trees from the McMurtrie Preserve. Another group of students positioned fieldstone in the shallow water on the north end of Cedar Lake to provide quality walleye spawning areas for future generations of Cedar Lake fish. St Croix County Woodland Owners Association member Jack Rasmussen, United States Fish & Wildlife Service employee Kevin Hanson, and teacher Mandi Erickson supervised the McMurtrie project. DNR Fisheries Biologist Marty Engel and Gene Hatzenbeler and teacher Renee Kaczmariski supervised the Cedar Lake project. Adult helpers on both projects included Jackie Mitchell, Brian Settergren, and Larry Erickson plus members of the Star Prairie Fish & Game Association and Star Prairie Land Preservation Trust. The students learned valuable conservation lessons while important environmental projects progressed. What a great combination!

High school students help out

### Volunteers Needed

#### Storm Damage Clean-Up

High winds in the storm Wednesday, June 29th knocked down numerous mature trees at the McMurtrie Preserve. Clean-up is underway, but there is much work to do.

#### Oak Savannah Restoration

Thanks to a grant from the U.S. Fish and Wildlife Service, a contractor is clearing invasive trees and shrubs in an area to be restored to oak savannah. Volunteers are needed to assist him.

To volunteer for clean-up and clearing work, please call Stuart Nelson 715-248-3829.

## Cedar Bay Landing

From Peter Kling, Director

A name is chosen and we are nearly ready to start construction on the new access on the southwest end of Cedar Lake. Design and permitting are underway to begin construction of the Cedar Bay Landing this fall! The Trust will develop a 78 x 86 ft parking lot and 4 x 50 ft walking trail. The parking lot will compliment the nearby Town of Star Prairie owned winter drive-on access by providing safe parking for early season ice anglers. The landing will also provide a new public carry-in canoe and kayak access to the lake. A short walking trail and floating dock that crosses the near-shore marsh will protect sensitive plants while allowing foot traffic to the lake. Benches at the end of the dock will make this an excellent spot to watch migratory birds and other wildlife.

Thanks to the Town of Star Prairie for allocation of Park Dedication Funds for the landing purchase

A young resident of the McMurtrie Preserve

and development. We also wish to thank the St. Croix County Land and Water Conservation Department staff for designing the parking lot and trail, providing construction oversight, and conducting final inspections. The parking lot design incorporates a pretreatment and infiltration basin and buffer strip to minimize runoff to Cedar Lake.

Parking lot construction is planned this fall. Walkway and dock construction is set for the spring of 2006.

## Recycle Your Old Dock Supports!

We anticipate a need for pipe dock supports with a disk or wheel rim base for use in the dock and walkway construction. Many of you who have converted to a wheeled dock may have these in storage. Please save them for us for one more winter. We will issue a call for your donations when we are ready for the walkway construction.

# THANKS TO OUR PARTNERS

## River Island Park Party

Tuesday, August 16<sup>th</sup>  
Beginning at 5:00 p.m.

Presented by Star Prairie Fish and Game

Come for  
Musical Entertainment!

- Sun Mountain Fiddler Bank, New York State
- Trigger Happy

Food and Drink! Lots of Fun!

7:00 p.m. A special announcement to enhance the  
educational opportunities at the McMurtrie Preserve

Parking and shuttle service available from the Star Prairie ballpark.

## Grant Supporters

With final state budget approval, we will have  
more help in hand to complete important projects.

### **Department of Natural Resources Lake Protection Grant**

Cedar Bay Conservation Legacy Project

**Grant Amount: \$7,667**

Reimburses some of the expenses for the acquisition of the  
McMurtrie Preserve.

### **Department of Natural Resources River Planning Grant**

Horse Creek, Cedar Creek and Apple River

**Grant Amount: \$10,000**

Provides educational curriculum and interpretive materials for  
education about river ecosystems, establishes priorities for  
protection along area waterways, and helps to strengthen  
protection efforts of the Star Prairie Land Preservation Trust.

### **United State Fish and Wildlife Service**

Oak Savannah Restoration

**Grant Amount: \$2,500**

Provides contractor to remove invasive shrubs and  
trees to establish an oak savannah. Volunteer time is  
needed to match this grant.

### **Pheasants Forever**

Oak Savannah Restoration

Assists with site preparation and seeding.

### **Gathering Waters and Quixote Foundation**

Provides planning and development assistance.

# IMPORTANT REMINDERS
